

SP000200 Waste collector

All in one suction unit for collecting waste in bags.

Low noise plug and play Vacuum system.

Simple operation

Connect up-to 12 smaller suction points.

Bag capacity 0,3 m³ waste/dust.

The vacuum system is for smaller productions with less than 30 kg of waste per day.

Technical data:

Max. m³/h: 1.200
Max mm Wg: 300
Max. power: 2,2 Kw
Noise level: 50 DbA.

Dimensions:

Width: 720 mm
Depth: 760 mm
Height: 2.190 mm

The waste bag is fitted on a trolley, so its easy to remove a full bag and replace it with a new empty bag.

The operation can be done by a machine operator.
